

RE: Debit Card information

1. We DO take Employer Sponsored Debit Cards and they are used for both the checking account and debit card by calling the number on the back and getting the account and routing number. An Employer Sponsored Card can also be called a Payroll Card. This is given to the employee and their wages are deposited directly on to the card by their employer.

2. We DO NOT take prepaid debit cards like Green Dot, MetaBank, Serve, NetSpend, Control, Edge and Gloss. These cards, as well as others, are examples of cards that the consumer can buy and reload. Trying to use these cards will cause the application to be DECLINED by West Creek.
